

The CEE Qualitative Evidence Synthesis Group

A new Working Group has been established for developing methodological guidance for Qualitative Evidence Synthesis for both standalone systematic reviews and those related to intervention effectiveness and implementation. This will support systematic reviews of qualitative research for both the Campbell Collaboration (<https://campbellcollaboration.org/>) and the Collaboration for Environmental Evidence.

The group is coordinated by Dr. Ruth Garside (University of Exeter. Member of the Cochrane Qualitative and Implementation Methods Group; core member of the CERQual working group; part of the UK Centre for the Collaboration for Environmental Evidence). Other members of the group are listed below and have experience in Cochrane, Campbell, CEE and CERQual.

Ms. Alison Bethel	University of Exeter, UK
Dr. Andrew Booth	University of Sheffield, UK
Associate Professor Margaret Cargo	University of Canberra, Australia
Dr. Ruth Garside	University of Exeter, UK
Associate Professor Karin Hannes	KU Leuven, Belgium
Dr. Becca Lovell	University of Exeter, UK
Dr. Biljana Macura	Stockholm Environment Institute, Sweden
Dr. Heather Munthe-Kaas	Norwegian Institute of Public Health, Norway
Dr. Noreen Orr	University of Exeter, UK
Dr. Rebecca Rees	University College London, UK
Associate Professor Michael Saini	University of Toronto, Canada
Ms. Birte Snilstveit	International Initiative for Impact Evaluation (3ie), UK
